Description

The Tay Tay is a compact handcrafted glass, softly radiused to fit gracefully into contemporary spaces. Our Ceylon glass is an inspiring varicolored glass with a look reminiscent to natural quartz, with a glossy polished surface. Blues and reds dominate when unlit, but turn the light on and the earth-tones take over. This décor is created by rolling molten glass in small bits of various colors called frit along with various glass powders. The result is a multi-layered blown glass, where frit color is nestled between an opal inner layer and a clear matte outer layer. This blown glass is handcrafted by a skilled artisan, utilizing century-old techniques passed down from generation to generation. Each piece of this décor has its own unique artistic nature that can be individually appreciated.
